

XL SERIES

PREMIUM INTERNATIONAL SPAS

www.spamartshop.com.au

AFFORDABLE LUXURY SPAS

Oasis Spas is a **premium quality international brand** without the luxury price tag.

Our spas are **built to last** with premium components and the thickest shells on the market.

Our **Power Saver Technology** will save you thousands of dollars over the life of your spa and our **Easy Care Technology** means maintenance is simple.

Because they are quieter, roomier and more comfortable and with targeted hydrotherapy, aromatherapy and mood lighting, Oasis Spas offer the **ultimate spa experience**.

Plus, every spa comes with **free upgrades worth at least \$1600**.

So if you're looking for a premium spa at an affordable price, Oasis XL Series Spas offer unbeatable value for the discerning spa buyer.

PREMIUM INTERNATIONAL BRAND WITH GLOBAL STRENGTH

Sold in over 35 Countries.

Offices in Australia, Europe and Asia

WE OFFER YOU 3 LEVELS OF SUPPORT FOR YOUR TOTAL PEACE OF MIND

Oasis Spas are built and backed by a **Major International Manufacturer** that builds over a dozen different spa brands and distributes to over 35 countries around the world.

Our **Australian Head Office** provides both you and your Oasis Spa dealer with professional help, advice and parts.

And the *Customer Support Plan* provided by your **Local Oasis Spa Retailer** ensures advice, support and knowledge throughout the life of your spa.

THE ULTIMATE SPA EXPERIENCE

A BETTER MASSAGE

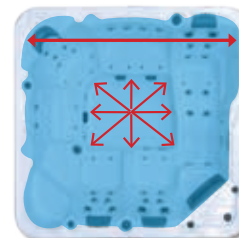

- Broad stream jets for a smoother, more enjoyable massage
- Every seat offers a different massage experience
- Jets targeted to specific muscle groups for maximum benefits and pleasure
- Neck therapy (most models) to relieve neck and shoulder tension
- Jets can be swapped around the spa to tailor your hydro massage experience
- Recliner lounges with up to 16 jets for a full body massage experience

SUPER QUIET FOR TOTAL RELAXATION

- Our insulation system and 'no gap' cabinet make our spas super quiet - so you can enjoy total relaxation

MORE ROOM AND MORE COMFORT

- Less wasted space around the edges of the spa means more internal room and greater comfort
- Bigger footwells so there's plenty of room for everyone's feet
- Ergonomic seating plus contoured recliner lounges that support your body and stop you floating

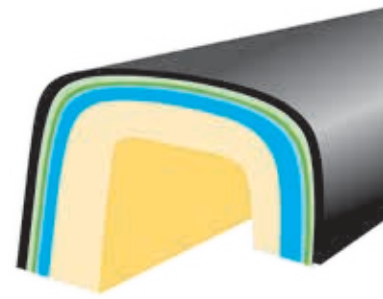

CREATE THE PERFECT MOOD

- Our "Aqua FX" underwater and water level lighting package, combined with soothing aromatherapy creates the perfect mood for the ultimate relaxation experience

THE THICKEST SHELL ON THE MARKET

- 8-10mm thick fibreglass shell with American acrylic surface
- 6 layer laminated construction for strength and rigidity
- Oven cured for maximum strength
- Shell strength is necessary to support up to 3 tonnes of water and bathers plus the weight of the spa

PREMIUM BEARINGLESS JETS

- Our spa jets spin on a floating stainless steel shaft, so there are no bearings to fail
- Screw in & out - no clips to break
- Tough PVC and stainless steel construction for long life and resistance to chemicals

PREMIUM COMPONENTS

- Premium American acrylic surface
- Quality pumps, fittings and components throughout
- Stainless steel heater
- Heavy duty cover with marine grade vinyl

SUPER TOUGH CONSTRUCTION THROUGHOUT

- Reinforced footwell for maximum strength and rigidity
- Super strong triple reinforced frame is screwed to the top edge & footwell
- The frame also supports every seat
- Built tough - Oasis Spas are up to 50% heavier than other brands

SEALED ABS BASE

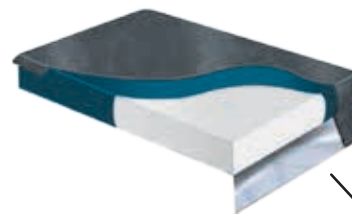

- An ABS base seals the spa to keep out cold air and pests
- The ABS base also keeps the frame away from the ground
- This base allows us to help stop heat loss through the base

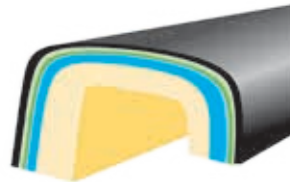

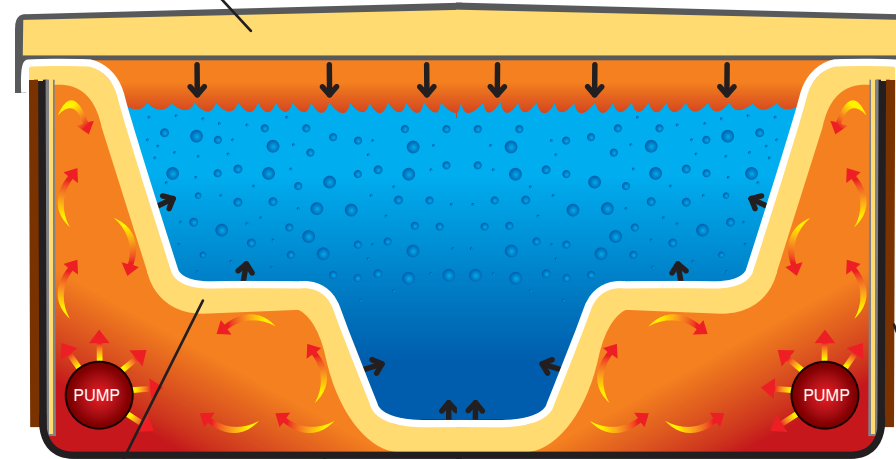

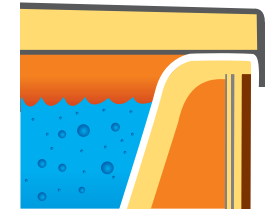

POWER SAVER TECHNOLOGY

POWER SAVER INSULATION SYSTEM

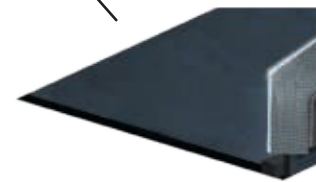

- Lockable cover with high density insulating foam stops heat loss from above

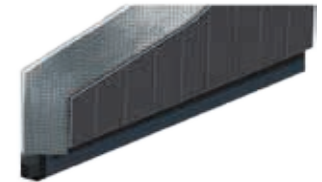

- “No Gap” cabinet keeps heat in and cold air out

- 25mm thick foam on the shell stops heat loss through the spa shell (3 x the average thickness)

- ABS base helps stop heat loss at ground level

- Insulated cladding plus multi layer insulation on the cabinet sides

POWER SAVER FILTER PUMP

- Only needs to run 4 hours a day, not 24 hours a day like many brands
- High Flow
- Low Power Draw

EASY CARE TECHNOLOGY

AUTOMATIC DIGITAL CONTROL SYSTEM

- Handy touchpad control for pumps, bubbles, temperature and lighting
- Automatic heating and filtration - just set and forget
- Handy after-spa clean up cycle
- Adjustable filtration times to suit your level of spa use

CD OZONE & MIXING CHAMBER

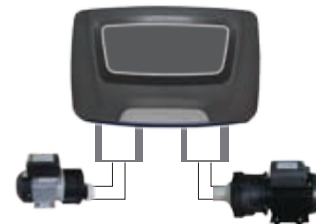

- This clever system automatically kills germs and breaks down body oils for reduced chemical usage and crystal clear water
- Patented mixing chamber fully mixes the ozone gas with the spa water to maximise efficiency while protecting you and your spa

EASY CARE SPA JETS

- Unlike most spa jets, our jets are self cleaning - so they don't need maintenance and will never stop spinning
- Easy to remove - just screw them out

EASY CARE FILTRATION

- Our huge 100 sq ft, dual cartridge filter system ensures your water stays clean and clear
- "Max Flow" Valve maximises filtration and water clarity
- Our dual pump filter technology boosts filtration by up to 6 times when you are using your spa

EASY CARE CABINET

- No maintenance cabinet cladding made from UV protected synthetic timber
- Unlike timber, our cladding doesn't need constant sanding and oiling
- Just spray the cabinet with a hose if it's dirty

**UP TO \$1,800 OF
FREE UPGRADES**

Australia's Best Value Spas

Prove it for Yourself!

	OASIS SPA	OTHER SPA
8-10mm thick spa shell - crucial due to the weight & volume of water (feel underneath the lip of the spa)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Multi-layer insulation on the sides of the cabinet (to reduce running costs & pump noise)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
25mm thick high density foam insulation on the shell (3 x average thickness)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Minimal gap between the shell and cabinet (to stop hot air rising and escaping)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
ABS base to lock heat in and keep vermin, weather & cold air out	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Less wasted space and larger footwells for more internal room and comfort	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Self cleaning, bearing-less jets (jets with bearings need regular cleaning or they get clogged and don't spin)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
All jet faces have rigid PVC backs (most jets need replacing every two to five years due to chemical damage)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
"Easy Swap" screw-out jet faces (most jets use a clip which are hard to remove and ultimately break)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Extra strong timber frame with reinforced corners and base plus seat supports all round	<input checked="" type="checkbox"/>	<input type="checkbox"/>
CD Ozone System (breaks down body oils for less chemical use and cleaner water)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
"Mixing Chamber" on the ozone system (for better results with no damage to cover & headrests)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Large twin cartridge, 100 square foot filter system (for better water quality)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Two pumps running through the filter system (for better water quality and more filtration when you need it)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Can use optional micro filters (for better water quality and less maintenance)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
High Flow .5 HP filtration pump (quiet, reliable, cheaper to run and only needs to run 4 hours a day, not 24 hours)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Spring loaded flow valve in the plumbing (to maximise filtration AND safety for you and your spa)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Special seat designs that stop you floating away (so you can fully relax)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Adjustable aromatherapy system that uses essential oils (not fragrant foam beads which are useless)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Spa is backed by a 3 level "Lifetime Support Commitment"	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Which spa do you feel is built better and is more comfortable	<input type="checkbox"/>	<input type="checkbox"/>
